

Petrela, Winter & Associates Expands into Sudbury, Ontario with the Addition of Jocelyn Horsfall

Petrela, Winter & Associates (PWA) is pleased to announce the addition of Jocelyn Horsfall to its team of bonding and construction insurance broker specialists, and the expansion of the firm into Northern Ontario.

Jocelyn will be based in Sudbury, complemented by the full support of PWA’s industry leading team of advisors and resources, providing contractors in Northern Ontario with the personalized service, expert advice, and cost-effective insurance and bonding solutions that PWA is known for in the construction industry.

Jocelyn was born in Sudbury and is a long time area resident and insurance professional, having devoted her entire broker career to serving the insurance needs of Northern Ontario businesses. She was a Board member of the Northeastern Ontario Construction Association (NOCA) for several years and remains active with the Association, and is well known and respected throughout the region’s construction community. Prior to joining PWA, Jocelyn spent 13 years as a commercial insurance broker and 7 years as a commercial insurance underwriter. She holds the Chartered Insurance Professional (CIP) and Canadian Accredited Insurance Broker (CAIB) designations, and is past President of the Rotary Club of Sudbury and a recipient of the Sudbury “40 Under Forty” award.

“Jocelyn’s commercial insurance experience and her dedication to the construction industry are an excellent fit for PWA’s construction specialization. The Northern Ontario contractor community has been underserved in terms of local brokers that specialize in construction, so we’re excited to bring our specialized services to contractors in the region and give them a competitive option to choose from”, says Roy Ferreira, Vice President and Managing Partner of PWA.

“Northern Ontario contractors will appreciate PWA’s unique combination of personalized, informed and pragmatic service and advice, backed by the resources and buying power of Navacord, one of the largest and most influential surety and construction insurance brokers in Canada”, says Gregory Petrela, President of PWA.

Petrela, Winter & Associates, a Navacord Broker Partner, is a leading Canadian owned and owner-operated bonding and insurance brokerage specializing exclusively in construction since 1979.
